

Modular Aluminium Framing

Inspiration and Ideas
for Modular framing uses.

Welcome to volume 1 of our Brainstorm booklet bringing you inspiration on uses for our AluPro Modular profile systems.

Virtually any thing is possible from Houses to Fire trucks from Guards to displays. If you wish to have a picture published in our next issue, feel free to email it through to: brainstorm@autolineautomation.co.nz

Enjoy
The Autoline Team

KEY FEATURES OF OUR SYSTEM

- **FLEXIBLE DESIGN**

More flexible constructions. Butt joints, oblique angles, mitred corners are all possible without compromising the connection strength.

- **FAST ASSEMBLY**

Maytec connection system is quick, simple to use and only requires a 5mm hex key to tighten, REAL cost savings when compared to a welded frame.

- **STRONG CONNECTIONS**

Central connector gives high connection strength in all directions, upto 18,000 N working load per connector.

- **LARGE RANGE OF EXTRUSIONS**

Over 200 different profiles available, this makes virtually any construction possible.

- **SERVICE AND SUPPORT**

Free CAD software & online library to support you. We will draw your job in CAD and provide conceptual drawings.

This frame is fitted into the back of this vehicle providing fully adjustable shelves
